

## wines on tap

you're probably wondering what this "tap" business is all about. This is wine direct from the wineries, in stainless steel kegs. there are less sulfites than bottles & without all of the issues that come along with bottles. it's fresh & every glass is as good as the first. And it's "green"! no bottles, no corks & no waste. we serve our wines at the proper temperature. our red wines are at 59° and white wines are served at 49°. have faith in the taps & enjoy!
